1. Procurement																																																																																
1.1	Anti-Collision Warning System for Tower Crane: HK\$170,000 including																																																																															
a	Controller unit x 1 pc																																																																															
b	10.1" color monitor x 1 pc																																																																															
c	Warning device x 1 pc																																																																															
d	UWB Station x 6 pcs																																																																															
e	180 degrees IP Camera x 2 pcs																																																																															
f	Wiring and Installation Charge																																																																															
g	1 year Product Warranty																																																																															
1.2	Anti-Collision Warning System for Mobile Cranes: HK\$90,000 including																																																																															
a	Controller unit x 1 pc																																																																															
b	10.1" color monitor x 1 pc																																																																															
c	Warning device x 1 pc																																																																															
d	UWB Station x 2 pcs																																																																															
e	Angle Sensor x 1 pc																																																																															
f	Solar panels and battery																																																																															
g	Wiring and Installation Charge																																																																															
h	1 year Product Warranty																																																																															
1.3	Anti-Collision Warning System for Crawler Crane: HK\$90,000 including																																																																															
a	Controller unit x 1 pc																																																																															
b	10.1" color monitor x 1 pc																																																																															
c	Warning device x 1 pc																																																																															
d	UWB Station x 2 pcs																																																																															
e	Angle Sensor x 1 pc																																																																															
f	Wiring and Installation Charge																																																																															
g	1 year Product Warranty																																																																															
1.4	Anti-Collision Warning System for Building: HK\$130,000 including																																																																															
a	Controller unit x 1 pc																																																																															
b	10.1" color monitor x 1 pc																																																																															
c	Flasher / buzzer x 1 pc																																																																															
d	UWB Station x 6 pcs																																																																															
e	Wiring and Installation Charge																																																																															
f	1 year Product Warranty																																																																															
1.5	Anti-Collision Warning System for Building: HK\$70,000 including																																																																															
a	Controller unit x 1 pc (with built-in battery)																																																																															
b	10.1" color monitor x 1 pc (with built-in battery)																																																																															
c	Flasher / buzzer x 1 pc (with built-in battery)																																																																															
d	UWB Station x 3 pcs (with built-in battery)																																																																															
e	1 year Product Warranty

2. Optional services item:																																																																																										
2.1	Cloud Based Management System: HK\$80,000 including																																																																																									
a	Hardware: 4G Wireless Router, DELL server computer and Voice Alert Unit																																																																																									
b	Software: real-time collision warning display, operation video recording and playback, remote operation (mobile / PC / tablet), machine and worker information maintenance, warning data analysis and reporting, alert message management and emergency calls management.																																																																																									
c	Installation Charge																																																																																									
d	1 year product warranty																																																																																									
2.2	Anti-Collision Warning System for Tower Crane Lifting Hook: HK\$40,000 including																																																																																									
a	Solar panels and battery																																																																																									
b	Application software																																																																																									
c	UWB Station x 1 pc																																																																																									
d	Wireless charging stand with battery																																																																																									
e	Wiring and Installation Charge																																																																																									
f	1 year product warranty																																																																																									
2.3	Anti-Collision Warning System for Crawler Crane Lifting Hook: HK\$30,000 including																																																																																									
a	Application software																																																																																									
b	UWB Station x 1 pc																																																																																									
c	Wiring and Installation Charge																																																																																									
d	1 year product warranty																																																																																									
2.4	Digital Position System – Lifting Hook and Platform: HK\$70,000 including																																																																																									
a	UWB stations x 2 pcs																																																																																									
b	Controller box x 1 pc																																																																																									
c	UWB Tag with Power Bank x 2 pcs																																																																																									
d	Lighting Box for Crane																																																																																									
e	Lighting Box for Outside																																																																																									
f	Wiring and installation charge																																																																																									
2.5	Monitor for lifting hook and wire: HK\$60,000 including																																																																																									
a	AHD camera x 2 pcs																																																																																									
b	DVR Unit x 1 pcs (recording for 1 week)																																																																																									
c	Wireless Communication Units																																																																																									
d	10.1" color monitor x 1 pc																																																																																									
e	Wiring and installation charge																																																																																									
2.6	System components for lifting zone: HK\$40,000 including																																																																																									
a	UWB station x 4 pcs																																																																																									
b	Controller box x 1 pc																																																																																									
c	Battery pack x 2 pcs																																																																																									
d	Alert unit x 2 pcs																																																																																									
e	Wiring and installation charge																																																																																									
2.7	RFID key system: HK\$5,000																																																																																									
2.8	Emergency Calls: HK\$5,000 including																																																																																									
a	Controller box x 1 pc																																																																																									
b	Warning buzzer x 1 pc																																																																																									
c	Wiring and installation charge																																																																																									
d	1 year product warranty																																																																																									
2.9	Extended Warranty for 1 year																																																																																									

PA23-048 I-Vision Anti-collision warning system 3.0

3	Rental																																															
3.1	Leasehold - Anti Collision Warning System for Tower Crane: \$200,000 (\$50,000 x 4 months minimum)																																															
a	Controller x 1 pc																																															
b	10.1" color monitor x 1 pc																																															
c	Warning device x 1 pc																																															
d	UWB Station x 6 pcs																																															
e	180 degrees IP Camera x 2 pcs																																															
f	Wiring and Installation Charge																																															
3.2	Leasehold - Anti Collision Warning System for Mobile Crane: \$60,000 (\$15,000 x 4 months minimum)																																															
a	Controller unit x 1 pc																																															
b	10.1" color monitor x 1 pc																																															
c	Warning device x 1 pc																																															
d	UWB Station x 2 pcs																																															
e	Angle Sensor x 1 pc																																															
f	Solar panels and battery																																															
g	Wiring and Installation Charge																																															
3.3	Anti-Collision Warning System for Crawler Crane: \$60,000 (\$15,000 x 4 months minimum)																																															
a	Controller unit x 1 pc																																															
b	10.1" color monitor x 1 pc																																															
c	Warning device x 1 pc																																															
d	UWB Station x 4 pcs																																															
e	Angle Sensor x 1 pc																																															
f	Wiring and Installation Charge
