Digital is central to meeting our five customer outcomes

Get the basics right, always

- Predict failures
- Proactively repair
- Improved service levels

Warn me, inform me

- High usage alerts
- Leak alerts
- Real-time outage alerts
- Real-time usage alerts
- Bill prediction

Fair and affordable for all

- Asset optimisation and deferral
- Reduced operating costs and increased productivity

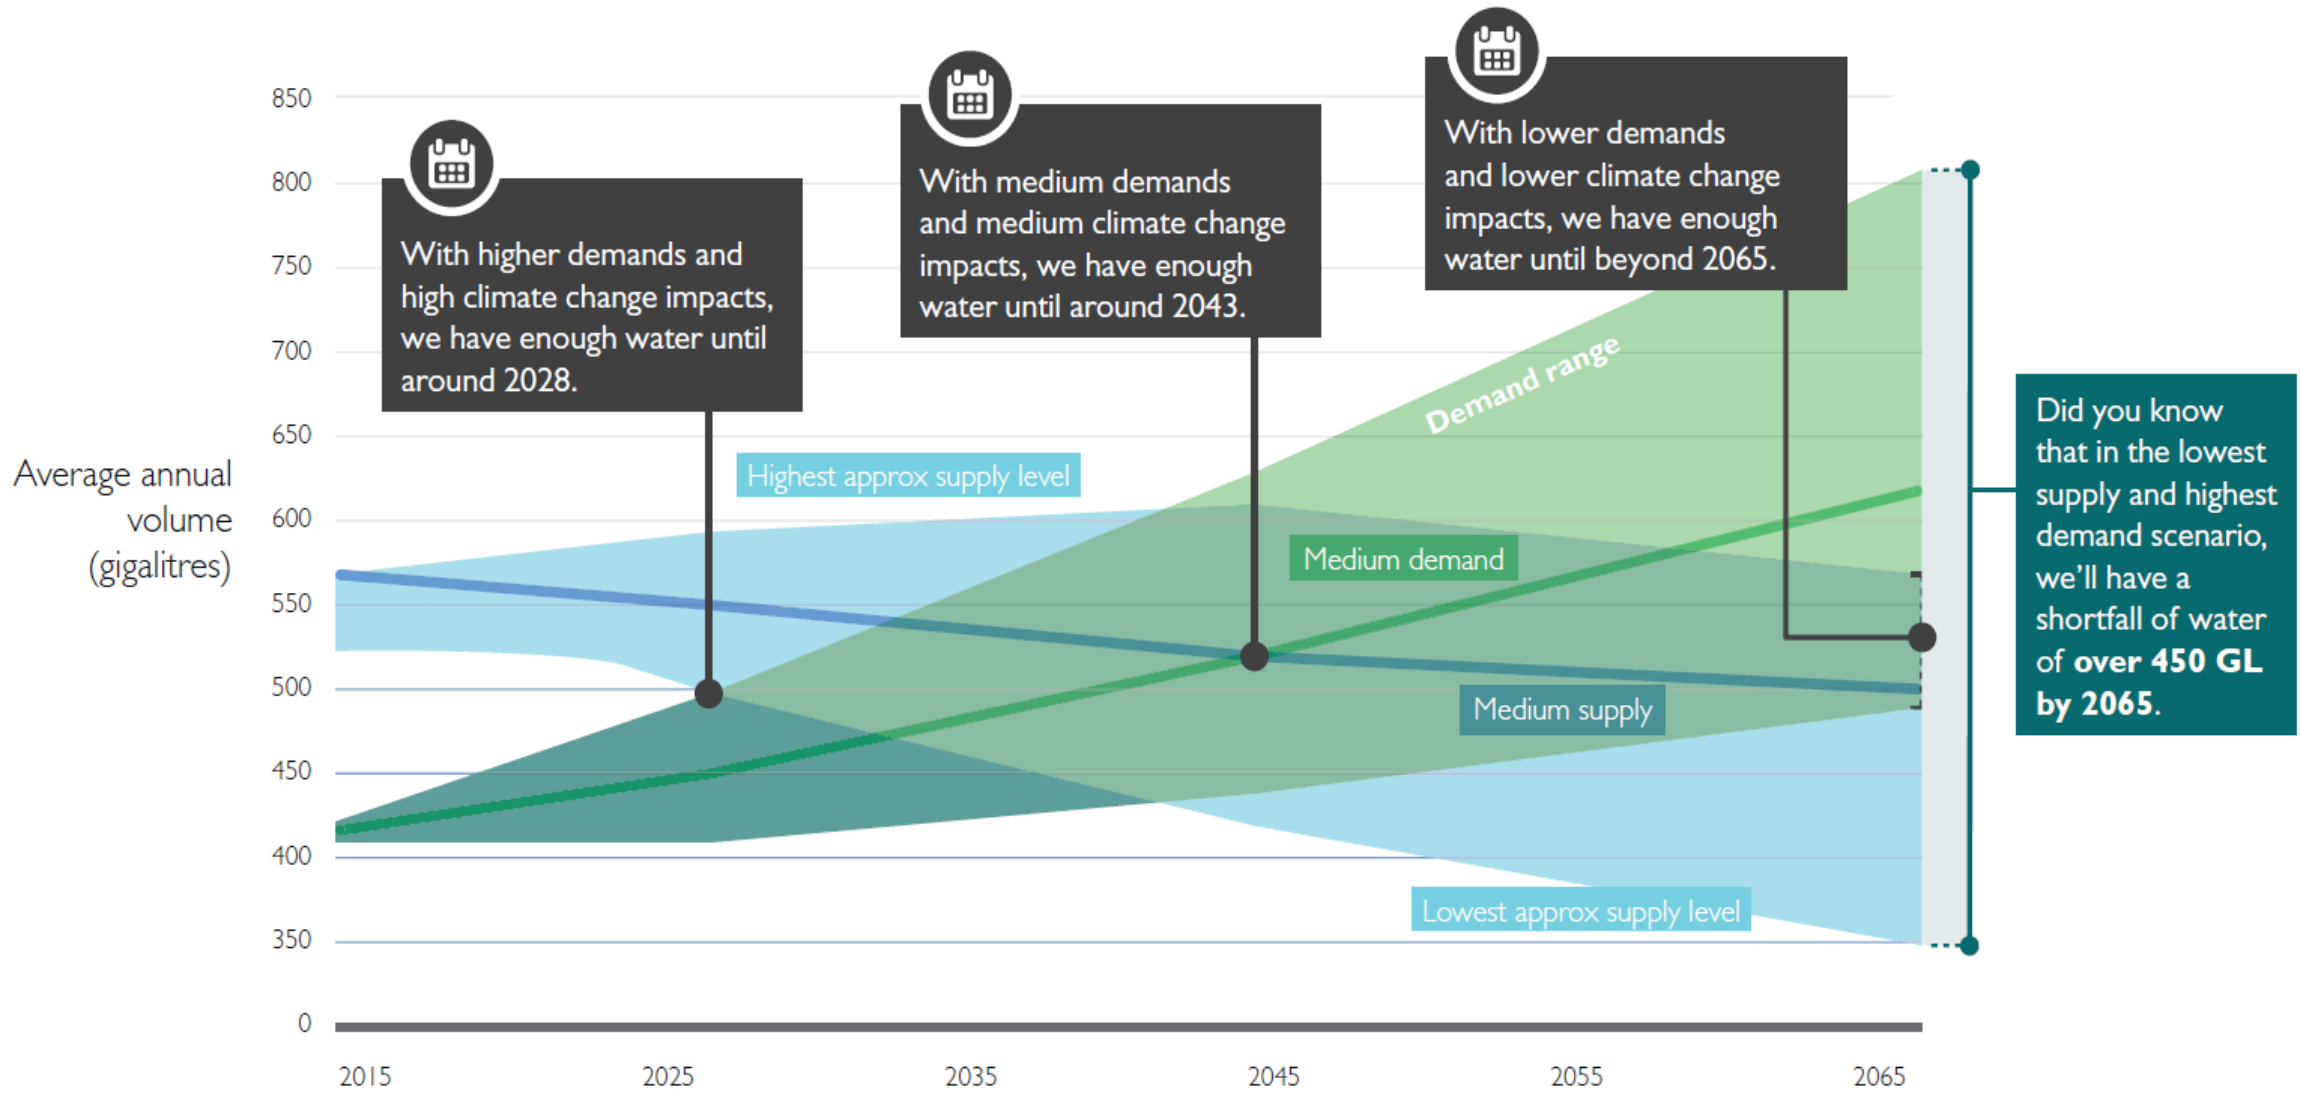

Make my experience better

- Better understanding of individual customer needs
- Increased self-serve capability
- Enhanced digital channels

Support my community, protect our environment

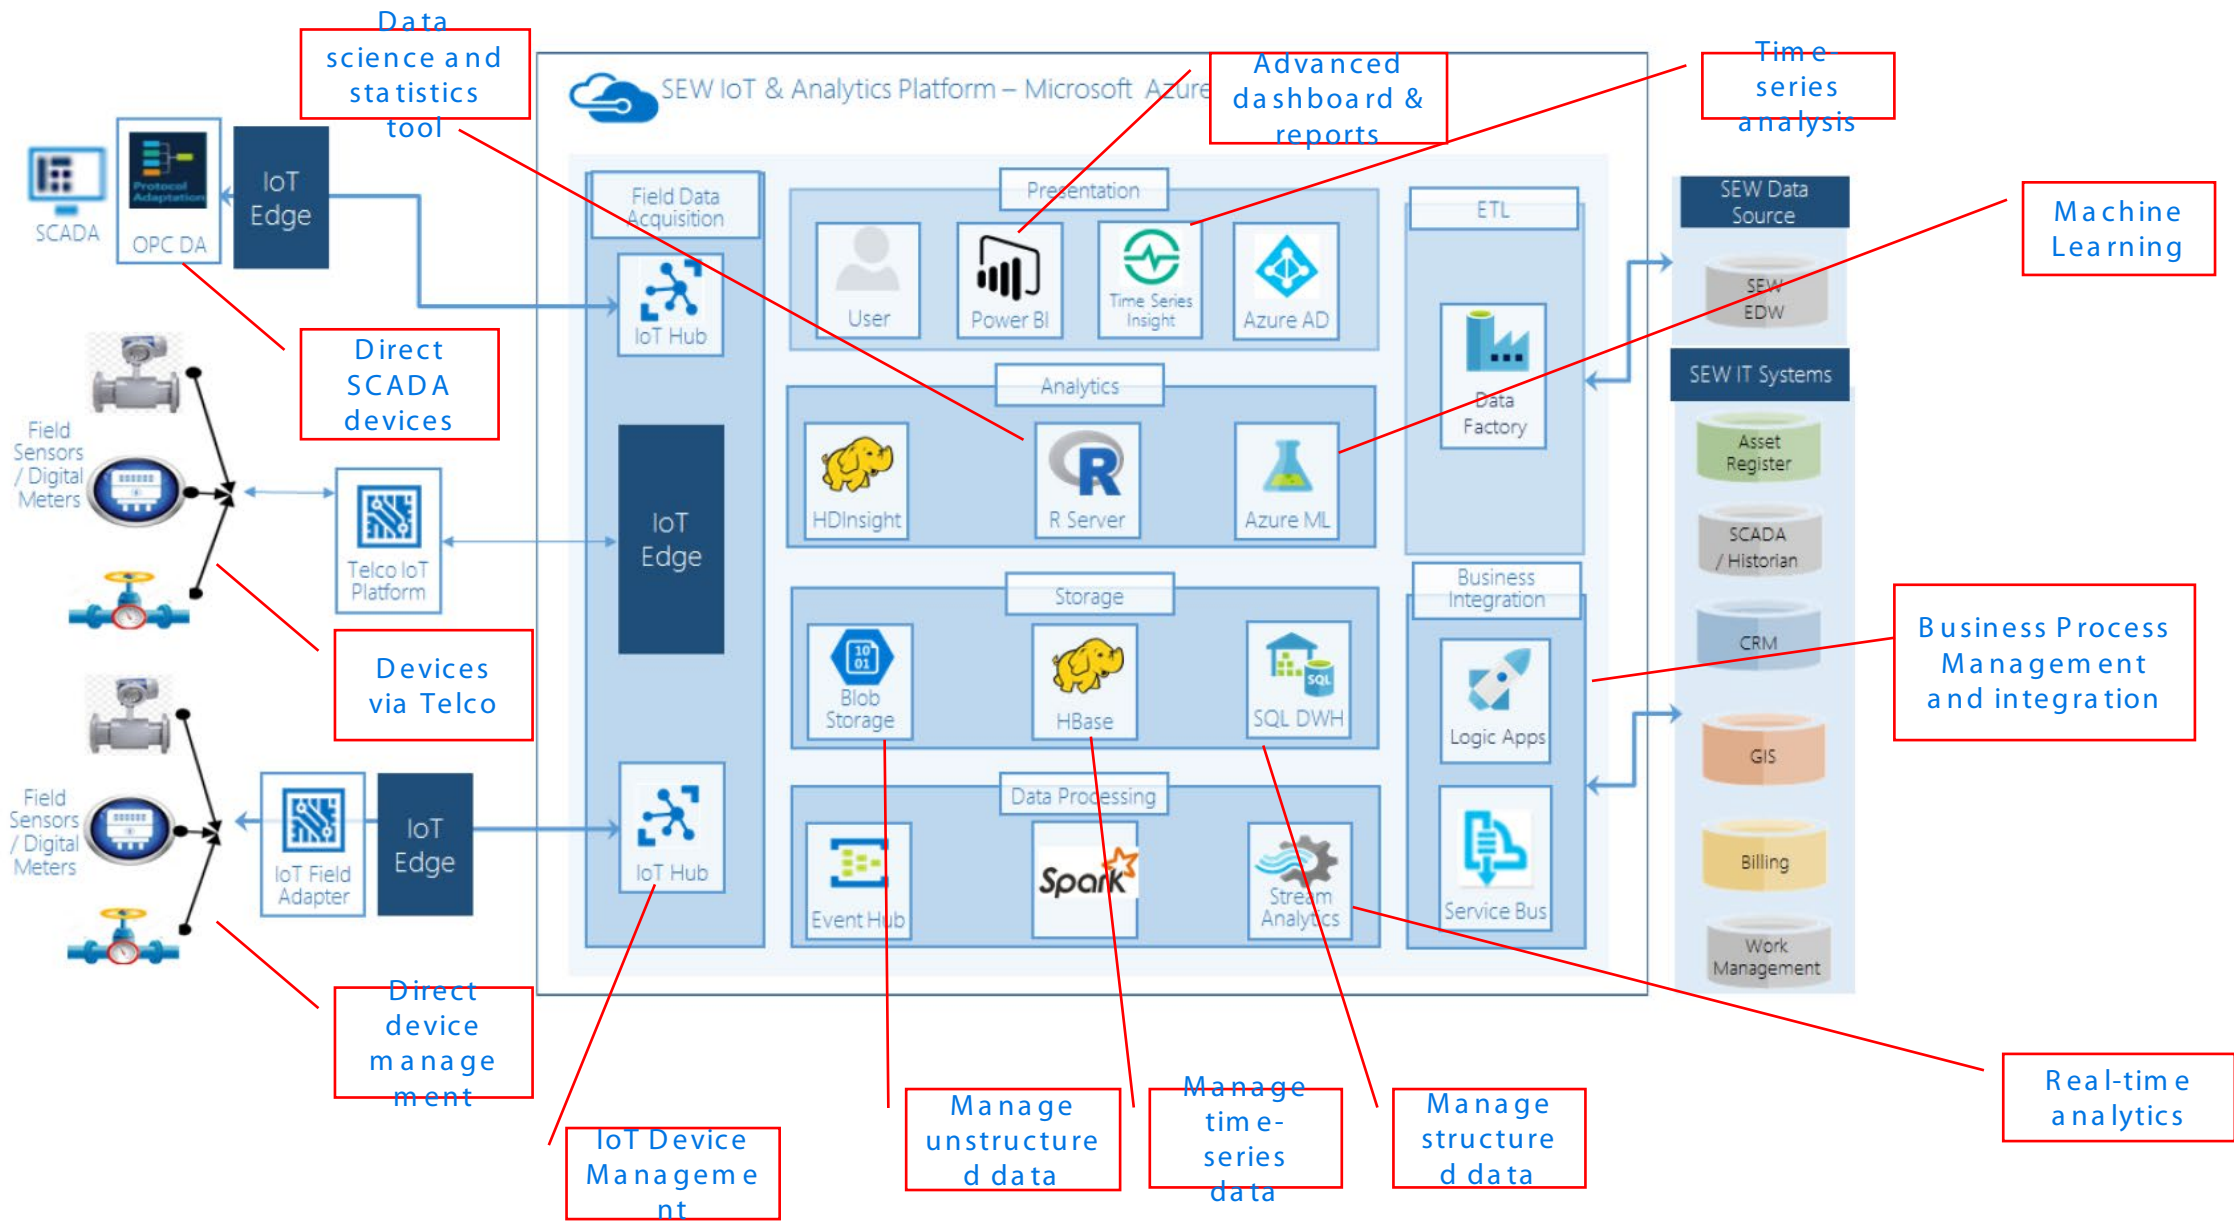

- Minimise water losses
- Advanced sewer network monitoring
- Reduced traffic disruption
- IoT enabled emissions tracking
