Item	Description	Unit Price HKD																																																
Transbot	Supply and Delivery of O-Matic Transbot	\$ 150,000.00																																																
CITF # PA19-011	Specification:																																																	
	- Operating Temperature: -35°C ~ 80°C																																																	
	- Maximum Range: 100m																																																	
	- TX power supply: 4 AA size Alkaline batteries																																																	
	- Frequency: UHF433 xxx MHz																																																	
	- Industrial Wireless control																																																	
	- Speed: 0-5km/hr																																																	
	- Payload up to 200kg																																																	
	- Type of battery: Lithium																																																	
	- Battery Life: 8 hours (Charging time 4 hours)																																																	
	User Training																																																	
	- Max. 5 person per training session																																																	
	- 1 day on-site training																																																	
	For extra trainee, HK\$1,500 per head will be charged.																																																	
2	HKD 150,000/ machine including battery of 4-hour life and 0.5 day of training	Refer to description
