Description	Qty	Unit Price (HK\$)	Total Price (HK\$)																																																																																																																											
FieldConnect V3.0 (CIC) 100-user license	1	540,000	540,000																																																																																																																											
Complaint Information System Web Application																																																																																																																														
Features																																																																																																																														
Open-source technologies with no propriety software license for DWSS																																																																																																																														
Mobile native app run and installable on mobile phones (iOS and Android)																																																																																																																														
full accessible via web-browser																																																																																																																														
Support Chinese/English display and input																																																																																																																														
Photo upload/download with captured meta data (GPS, time stamp)																																																																																																																														
Capture English characters in UNICODE native form																																																																																																																														
Order report in pdf and ready for download																																																																																																																														
Data export file in cvs format ready for data backup																																																																																																																														
Central Order management console																																																																																																																														
Full function records in GPS Map and/or related records search																																																																																																																														
Security And Availability																																																																																																																														
Team/Role based authorization security on both data and functions																																																																																																																														
Workflow full cycle control																																																																																																																														
HTTPS 256-bit SSL encryption for data transmission																																																																																																																														
Approval form/records stored/locked permanently with workflow control																																																																																																																														
Maintenance and Support																																																																																																																														
App UI customization (1 month)																																																																																																																														
Company logo for App UI																																																																																																																														
Report Header																																																																																																																														
15-month Maintenance period																																																																																																																														
Hosting Configuration																																																																																																																														
Virtual Machine (2 CPU)																																																																																																																														
Apache Web Server																																																																																																																														
Passenger App Server																																																																																																																														
Sendgrid email server																																																																																																																														
Google Map Enterprise user license																																																																																																																														
Domain Grade SSL																																																																																																																														

2	<p>One off Perpetual License for core infrastructure such as email, push job alert etc., plus 3 work types, namely preventive maintenance job, inspection and ad hoc services jobs: a. 25 users: HKD 150,000 b. 100 users: HKD 400,000 c.
