1	Water Spraying Robot	Supply and Delivery of O-Matic	\$ 520,000.00	N/A	\$ 520,000.00																																																																																																									
	CITY # PA19-035	Water Spraying Robot																																																																																																												
		Specification:																																																																																																												
		- Robot working envelope radius: 1300mm																																																																																																												
		- Adjustable water pressure: 1~8bar																																																																																																												
		- Operating voltage: 110v / 220v																																																																																																												
		- Camera pixele: HD 1080P																																																																																																												
		(memory card is provided by client)																																																																																																												
		- Internet connection mode: 4G GSM																																																																																																												
		(4G card is provided by client)																																																																																																												
		User Training																																																																																																												
		- Max. 5 person per training session																																																																																																												
		- 5 day on site training																																																																																																												
		(2 days for 6 axis robotic arm,																																																																																																												
		3 days for water spraying)																																																																																																												
		For extra trainee, HKD8,000 per head																																																																																																												
		shall be charged.																																																																																																												
2	<p>HKD 520,000 (including 6 hours training for 5 persons & 1 year limited warranty) Note: a. The robot wiU be supplied as a complete set including the robotic arm and wheeled trolley with water pump and necessary accessories.</p> <p>b.Crawlcr cart is an option</p> <p>c. Local repair and maintenance support available at Applicant's Sun Tin workshop.</p> <p>d. Maintenance contract price is around 15% of invoice amount per year.</p>	Refer to description
