3	Safety / Cleaning Inspection Annotation	25,000.00
Allow annotate on a site map and printed on report		
Total :		91,250.00
50% discount for all items :		45,625.00
Net total :		45,625.00

Item	Description	Amount (HKD)
1	ESIA - DWSS	Included
For project: HY/2021/19		
Cloud based application that support commonly used browser, such as Edge, Chrome, Safari		
Mobile apps that runs on iOS & Android		
Functional modules including		
RISC Management		
Site Diary		
Safety Inspection		
Cleaning Inspection		
Labour Return Record		
2	ESIA-RM RFI Management	Included
Allow management of test-plan		
On each test plan, allow define locations, work-types and user-define of respective inspection content		
Allow creation of a new RISC form by few button-clicks		
Allow issuance of RISC form		
Input of inspection detail, also support multi-2D-locations		
Support document attachment, photo & video shooting with user, date/time and GPS locations recorded.		
RISC managed to be flow between contractor and consultant		
Consultant input of inspection result		
Real-time approval and signature on mobile		
Express re-submission of a failed RISC		
Enquiry		
Test-plan progress in a tabular view		
Easy Identification of the RISC status of each location/work type		
Pending cases and history record		
Inspection requisition detail information		
Result, inspector comment and photo		
RISC form		
RISC distribution on		
work-type, requestor, location		
Pass/Fail rate analysis		
Late-submitted RISC		
3	ESIA-SD Site Diary/ Site record Book	Included
Allow creation of site diary records, information including		
Date/time, user, weather information, on-duty labour, plant machinery/equipment status, remarks, notes		
Allow document attachment, photo & video shooting with user, date/time and GPS locations recorded.		
Allow multiple entries of activities records		
Enquiry		
Site diary record in a calendar view		
Site record report		
Export to PDF or Excel file		
4	ESIA-SI Safety Inspection	Included
Allow user-define of safety inspection checklist for each of the RISC type

The forms or records in the DWSS are designed to include fields to store the Object ID/BIM ID/Location ID, for the purpose of interfacing with BIM models.		
8	Mobile Device Management (MDM)	40,000.00
15 user licenses		
Workspace ONE STANDARD		
Included distribute, upgrade, manage and wipe the DWSS applications, data and configuration settings		
36 months contract		
9	Cloud Server hosting (Optional)	43,200.00
36 months contract		
32 GB Memory		
16 v CPU		
700 GB disk storage		
12 TB data transfer		
Linux		
expect around 1MB size per photo		
expect around 30MB per one set of RISC document which contain 6 photos.		
700 GB (after deduct about 100GB of Linux OS) can accommodate about 20,480 set of RISC documents.		
10	Remote backup (Optional)	21,600.00
36 months contract		
700 GB data		
Schedule backup at 1am ~ 3am every night		
Keep 7 latest daily copy		
11	System setup	Included
System installation		
Data Conversion		
Form customization		
12	User training	Included
Unlimited seats		
13	Software license	240,000.00
Period 36 months		
15-25 user licenses		
(Cloud server and back up are not included) Total :		280,000.00
Less ESIA :		-180,000.00
Net total :		100,000.00
