Helmet X Smart Safety Helmet System																																																																																																														
ITEM	DESCRIPTION	UNIT PRICE																																																																																																												
<u>Helmet X - Smart Helmet</u>																																																																																																														
<u>Helmet X - Lite Version</u>																																																																																																														
1	Safety helmet + 4G GPS version smart helmet inner lining with built-in battery	HK\$1,500.00																																																																																																												
<u>Helmet X - Standard Version</u>																																																																																																														
1	Safety helmet + 4G GPS & long battery life version smart helmet inner lining with user-replaceable battery	HK\$1,600.00																																																																																																												
<u>Helmet X - 4G GPS &amp; UWB Integrated Version</u>																																																																																																														
1	Safety helmet + 4G GPS & UWB integrated version smart helmet inner lining with user-replaceable battery	HK\$1,800.00																																																																																																												
2	Battery charger	HK\$100.00																																																																																																												
3	8-port USB charger	HK\$100.00																																																																																																												
4	USB A to USB C charging cable	HK\$30.00																																																																																																												
5	Extra battery	HK\$200.00																																																																																																												
6	Charging Station for 10 batteries	HK\$1,000.00																																																																																																												
7	Charging Station for 20 batteries	HK\$2,000.00																																																																																																												
8	Project setup and portal account, one off setting per project	Depends on project scope, up to 80% of hardware cost																																																																																																												
<u>Accessories</u>																																																																																																														
Incl.	Built-in flash light	Incl.																																																																																																												
Incl.	Built-in SOS button	Incl.																																																																																																												
9	Built-in PA system with two way communication function	Depends on project scope, up to 35% of Helmet X cost																																																																																																												
10	Replacement of helmet after expiration (per unit)	HK\$550.00																																																																																																												
<u>Servicing of smart helmets</u>																																																																																																														
11	Connectivity of Helmet X and portal account subscription ( \$50/month/device)	HK\$50.00																																																																																																												
12	Extended warranty for Helmet X smart helmet inner lining	10% of hardware price (first year included) - annual subscription																																																																																																												
<u>UWB Positioning &amp; Collision warning system</u>																																																																																																														
13	Built-in UWB Module	HK\$800.00																																																																																																												
14	UWB Real-time Positioning System	Depends on project scope, starting from \$30,000, up to 60% of UWB Positioning & Collision warning system cost																																																																																																												
<u>UWB Positioning &amp; Collision warning system</u>																																																																																																														
15	UWB Anti-collision Anchor with flash light and alarm	HK\$10,000.00																																																																																																												
16	UWB Real-time Position Gateway (300m Coverage for Anchors)	HK\$16,000.00																																																																																																												
17	UWB Real-time Position Anchors (Wireless Version)	HK\$14,000.00																																																																																																												
18	UWB Real-time Positioning Anchor (Wired Version)	HK\$13,000.00																																																																																																												
<u>Servicing</u>																																																																																																														
19	On-site technical support - per visit	HK\$3,000.00																																																																																																												
<u>API</u>																																																																																																														
20	API consultant and support service	HK\$60,000.00
